

Consulting

MAGNA CONSULTING GROUP

Our many years of experience in the resort industry can be of great use to your resort. Along with our experience, we have a defined technology to help you start up, run and debug every area of your resort operations.

We can install your system and choose the correct enterprise environment and software to achieve your goals. We work with small, large, domestic and foreign accounts. We can help you in the following areas:

- Executive Division (acquisition, creation, legal, public relations)
- Communications (personnel, e-mail, communication lines, statistics)
- Dissemination (publications, resales, owner referral)
- Finance (cash receipts, funding, loan servicing, accounting)
- Operations (reservations, check-in, concierge, hotel operations)
- Quality Control (staff training, product correction)
- Public (telemarketing, lead generation, sales rooms, sales administration, DNC) MAGNA TRAINING

Magna Computer Corp. specialists/consultants can help design, implement and configure the systems that work best for your specific timeshare operation. Upon installation, we offer in-depth, hands-on training of your staff. Our experienced trainers create a friendly learning environment and provide step-by-step instruction on all aspects of the new system. Training is available either on-site or at MAGNA's own training facilities.
